

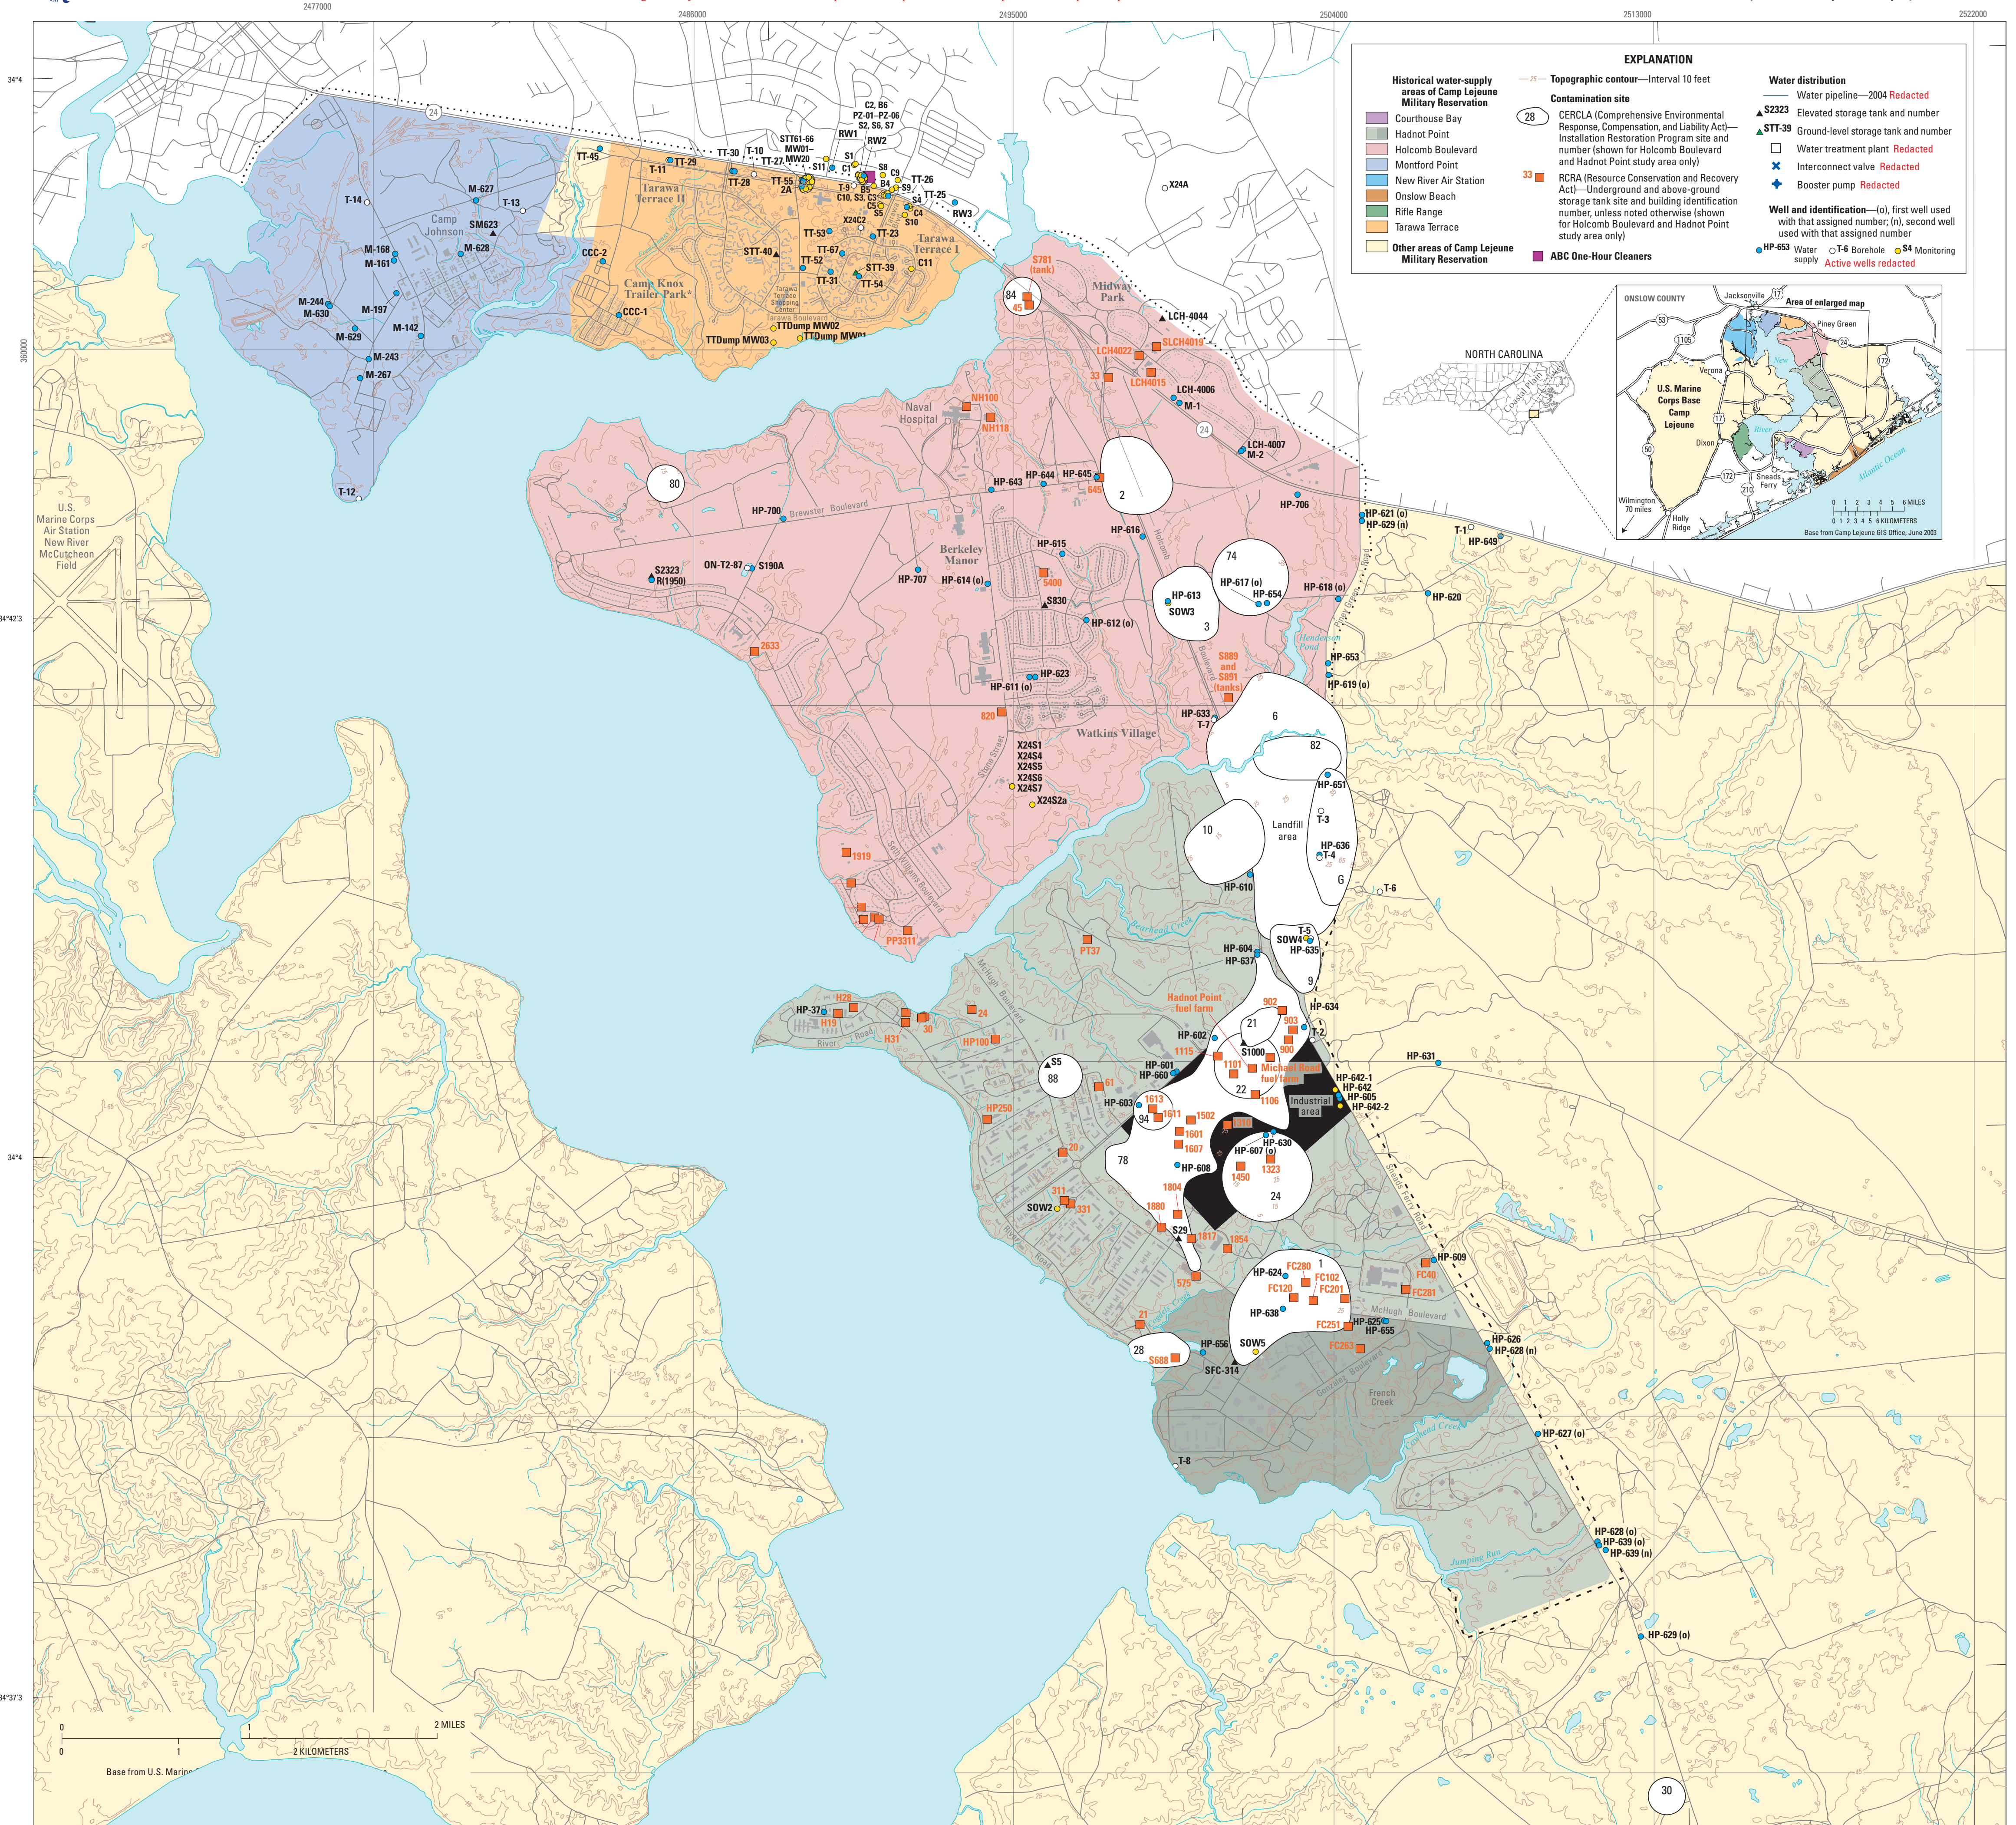

Plate B1 has been redacted by the Agency for Toxic Substances and Disease Registry (ATSDR) to remove coordinate locations and identification of active drinking-water supply wells and water-distribution system components to address security concerns related to the identification and location of active drinking-water systems. This was done in response to a request

from the Department of the Navy based on 18 U.S.C. 795(a); Department of Defense Instructions (DoDI) 2000.16; SECNAV M-5510.36 (Major General J.A. Kessler, U.S. Marine Corps to Dr. Thomas Sinks, Deputy Director, ATSDR, written communication, January 5, 2012). An unredacted version of Plate B1 was peer reviewed prior to publication.
